THE 2023 JAPAN EXCHANGE AND TEACHING (JET) PROGRAMME

## **CERTIFICATE OF HEALTH**

To be completed and signed by examining physician. Physician must not be a relative of applicant.

## To the Examining Physician (PLEASE READ THOROUGHLY)

You are asked to evaluate the physical and mental health of the applicant for the JET Programme. Participants of the JET Programme will be assigned for one year to schools or to local government offices in Japan. It is imperative that all participants be able to adjust to dramatic changes in climate, diet, and living conditions. Living and working overseas can also create *emotional* and *physical* stresses in response to the demands of living in a new and different environment. In some cases, mild disorders can become serious due to the stress of life and work in foreign surroundings. It is essential that your reply be based on a current and thorough physical examination and knowledge of the applicant's medical history.

## NOTE: PLEASE FILL IN ALL SECTIONS. ANY MISSING INFORMATION INCLUDING QUESTION 7 MAY HINDER OR PREVENT A CANDIDATE FROM PARTICIPATING.

Colour Blindness:   normal /   impaired (If impliced to ADD, ADHD, depression, anxiety, eating disorders, obsessive compulsive disorder (IMM/YYY)   Dalabetes   (IMM/YYYY)   Other (Please specify)   (IMM/YYYY)   Implicant's physical and chest X-ray examination or Tuberculosis Test: Please describe the result of the applicant's shistory; If the above findings, and the current international conditions of COVID-19, is it your observatithat their health status is adequate for them to go abroad and participate on the JET Programme?
